

# STAi Legacy Time Clocks

The STAi Legacy Time Clock terminals from School Technology Associates, Inc. for use with Skyward's TrueTime® software streamlines the processes of employee time reporting and payroll calculation. Employees can use the keypad, along with adding a barcode reader, proximity reader, mag stripe reader or their finger print (not saved) to authenticate themselves when clocking in and out for work. Our flexible STAi Legacy terminals enable each Skyward TrueTime customer to design fast, accurate and reliable time and attendance solution using employee input methods that fit your needs.

## STAi Legacy Clock Benefits

- Reduce operating costs
- Improve productivity
- Ability to view/edit TrueTime® data
- Seamless data integration to Skyward
- Large display screen
- Integrated Card readers
- Integrated Biometric Readers
- Rugged Enclosure & Multiple Mounting Options
- ATM style interface

## Reader Options

- Barcode
- Proximity
- Biometric
- Any combination of two readers above

## Physical Dimension

- 10.1" - 12.5X 8.5 X 2.3 In. w/o mount

## Power

- 15-30 VDC
- Power over Ethernet optional

## STAi Legacy Clock Pricing
