

Visitor Management

Comprehensive Background Checks

All guests are processed through our comprehensive background checks.

Custom Exclusion List

Identify & manage lists of unauthorized individuals for any or all buildings.

Cloud-based Hosting

No IT deployment needed. Works from any Internet-enabled computer.

Multi-building Management

Manage visitor access and exclusion lists across multiple buildings.

Emergency Alerts

Receive alerts instantly via text or email when a background check flags someone.

Great Value

The most affordable visitor management and comprehensive background checks available.

Benefits

Temporary Visitor

Volunteer

Vendor

Fast

Volunteers, vendors, and staff can be processed in under 30 seconds from check-in to badge printing.

Secure

Optional sex offender registry check and 3-point background check that references federal and state criminal databases.

Affordable

An extremely cost effective visitor management solution available exclusively through School Technology Associates for Skyward customers.

Software

Visitor Management

- Check in and Check out system for visitors, volunteers, and vendors.
- Run visitor's information against your own internally created exclusion list to ensure that anyone that is active on this list is flagged.
- Badge printing

- **National Sex Offender Search**(Add-on)

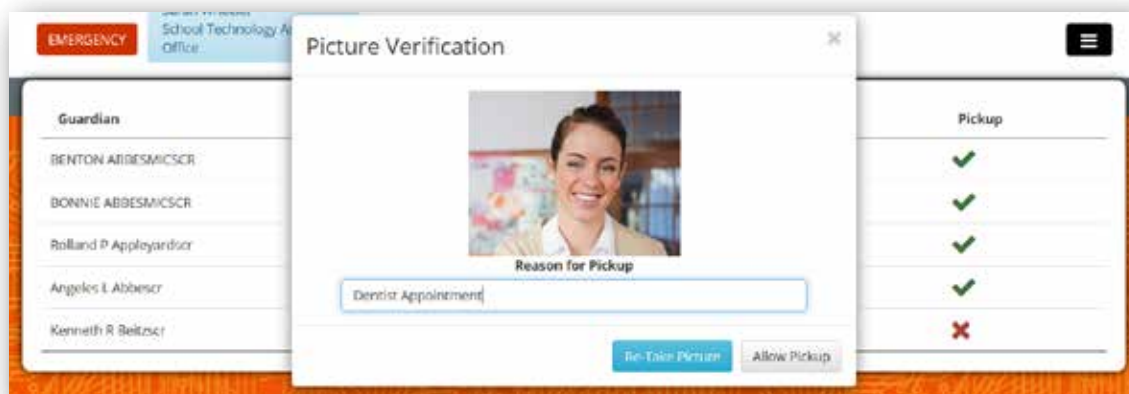

For low risk “temporary” visitors who are having no ongoing contact with vulnerable populations like students, children, or the elderly. With this add-on Visitor Management runs the visitor's information against the Sex Offender Registry of all 50 states including territories and independent lands.

- **GeoFencing**(Add-on)

Uses GPS technology to create a virtual fence around your organization that helps identify when people enter or exit an area defined in Visitor Management. Approved visitors crossing the geofence will trigger their information through the mobile app to the front office attendant's computer creating a visitors nearby log.

- **Skyward SMS 2.0 Integration**(Add-on)

- Student pick-up
- Guardian pick-up approvals
- Save guardian photo and pick-up reason in “Pick-up Log”

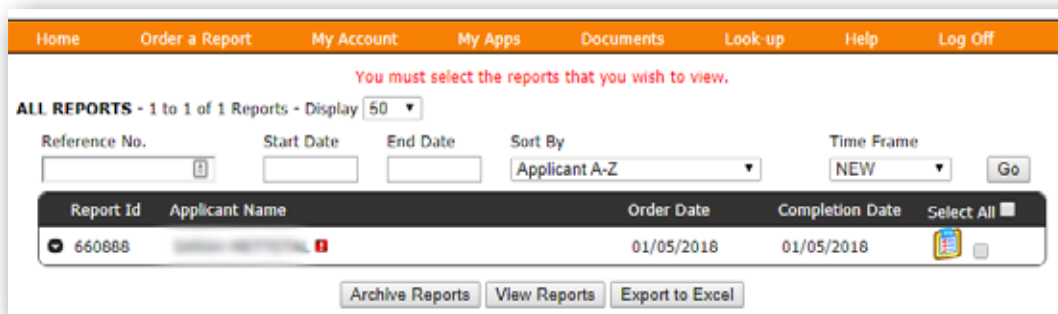

Software

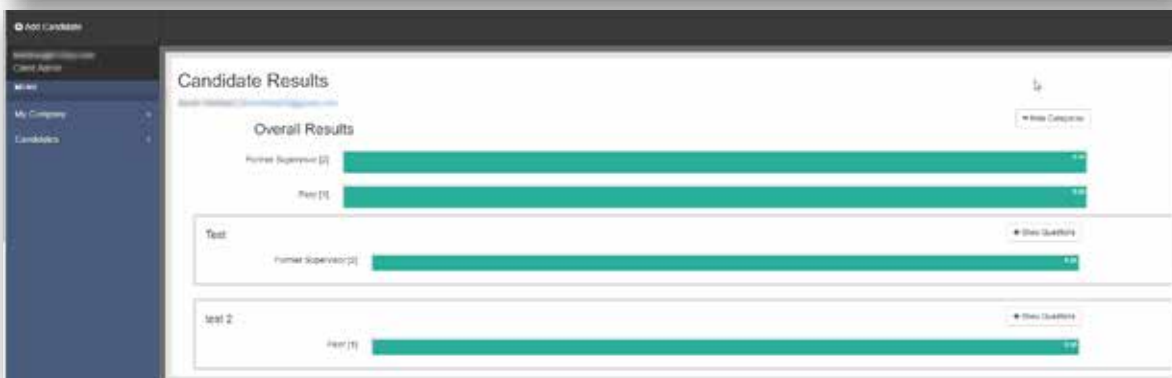

Criminal Background Check

- SSN Verification
- County, Statewide, and National Criminal Database Searches
- Federal Criminal Courts Search
- Driving History
- Automated Reference Checks
- Employee Module option for tracking employee background checks
- Information ties into Visitor Management

Employee Candidate Reference Check

- Candidate driven automated reference checks
- Create own surveys
- Easy to read reports
